# Abby's Heart

By [Ann-Christine Sundqvist](#) © 2001

For this heart I've used thread about size 20 or pearl cotton size 8 and three buttons (with four holes) about 10 - 12 millimeters in diameter (slightly smaller than  $\frac{1}{2}$  inch). This is a very simple heart and I prefer to tat it this way... wind a shuttle with the thread that you want to use and leave a "tail" of about 2 - 2 $\frac{1}{2}$  yards. Wind this tail on to a shuttle if you want to (continuous thread method) or just leave it hanging... This tail is your ball thread.

On the blue heart I've made the chains 1-1-1-1-1-1-1-1-1-1, just to make it slightly  
different...
