## LITTLE FISHIES

By Sharon Albers 1998

Please do not sell or publish this pattern.

These small fish make cute decorations for collars, pockets, etc. They are made from one large ring and two small rings, with picots making the fins and mouth.

The top fin is made of small, medium, large, and extra large picots. The Bottom fins are two extra large picots. The tail is two small rings with regular picots.

R 5-1--1---1----8-1-8-----1-----7.

R 3-3.

R 3-3.

If you want to make a sword-tail or shark or other kind of fish, you can make the tail fin rings different sizes, or make the picot of the lower ring longer than usual.

Have fun, make it the way you want!
